HELP!!! I OWE BACK TAXES! is an essential and authoritative workbook for any one of the five (or more) million Americans who are delinquent on their taxes. Rather than starting out with solutions, it begins by addressing the emotional issues that stop people from filing: fear, denial, confusion, depression, anger, time pressure, and financial overwhelm. Author Gary Smith has found that these emotional states are the underlying reason why people don't file their taxes. He addresses them with humor and understanding, then moves on to demystifying the process, with simple explanations illuminated by game-like icons and user-friendly examples. His warm and witty writing style speaks directly to the reader, and he takes readers, step by step, through the world of the IRS. The book address common issues like taxes and bankruptcy, how to make an offer-in-compromise, and tax issues for people in recovery. It includes dozens of clear charts, sample letters, real-world stories, and forms. With both comfort for the delinquent taxpayer, solid information, and a concrete plan, *HELP!!! I OWE BACK TAXES!* is a unique resource for the fiscally challenged.
